Plenty “O” Patches 100% Cotton Patches

The fact is well known that nothing surpasses 100% COTTON FLANNEL FABRIC for the purposes of absorbing foreign matter and residue, and in turn carry it through the BORE.

Patches are cut square unless otherwise stated.

Definitions: Rifle (“R”); Black Powder (“BP”); Pistol (“P”)

1st Choice Bore Cleaner

1st Choice Bore Cleaner is a new generation water-based copper and carbon remover. It is environmentally friendly and does not use harsh smelling products like ammonia or petroleum distillates. It is a water-based product making it non-flammable, has built in rust inhibiting properties to ensure metal surfaces are not damaged. Give it a try we think you will find it an excellent bore cleaner.

Made in Canada

JB-2	J-B Bore Bright Ultra-Fine Bore Compound		

Redding Products

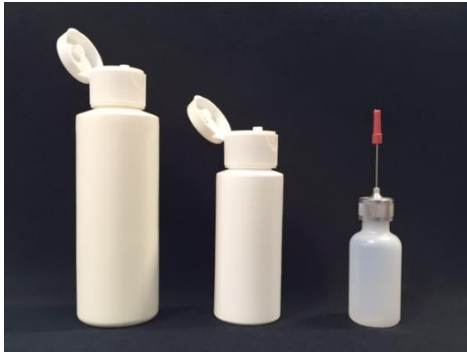

IMPERIAL SIZING DIE WAX – Imperial Sizing Die Wax was developed in the early 1970’s, and is still one of the most effective lubes on the market. The wax has extremely high lubricity and is easier to remove than any other lube we have tried—just wipe with a paper towel. A can of Imperial lasts a very long time—takes very little to get the job done. Works excellent as a mandrel lube for neck turning.

Model	Description	Dealer	List
ISW-1	Imperial Sizing Wax 1 oz.		
ISW-2	Imperial Sizing Wax 2 oz.		
ISW-3	Imperial Bio-Green Case Lube -NEW		
INL-1	Imperial Neck Lube 1 oz.		
INL-2	Imperial Neck Application Media		
INL-3	Imperial Media/Dry Neck Lube Convenience Pack		

Model	Description	Dealer	List

Bore Guides

Adjustable Bore Saver Rod Guides

The Dewey Bore Saver cleaning rod guide replaces the bolt in your action while cleaning. The guide allows the cleaning rod to go straight into the bore without harming the chamber or throat.

Made from anodized aluminum in 6 bore sizes, aluminum rod guide collar with threaded brass adjustment pin allows for quick adjustment to any bolt length. Chamber sealing O-rings eliminates solvents coming back into action, trigger and magazine areas. On some rifles, the bolt stop can be used to retain the rod guide by using the groove provided on the aluminum guide collar. Can be used with all types of cleaning rods. ABS models fit .695-.700 bolt diameter rifles which encompass the following actions: Browning A bolt, CPS, Dakota, Enfield 1917, HVA, Hart A, Interarms mag and standard, Kimber 89, Mauser 98, Parker Hale, Rem 7, 40X xp-100, 600, 700, 722, 725, 788, Ruger77, Savage 110, 112V, Springfield, Stolle, Win 54, 56, 70.

All adjustable guides allow brush clearance through tube, have milled solvent port and come with spare O-rings and O-ring assembly tool. Overall length of adjustable guides 10", S models 13"

Model	Description	Dealer	List
ARL	Fits all AR style rifles in any caliber.		

Bolt Action Lug Recess Cleaning Tools

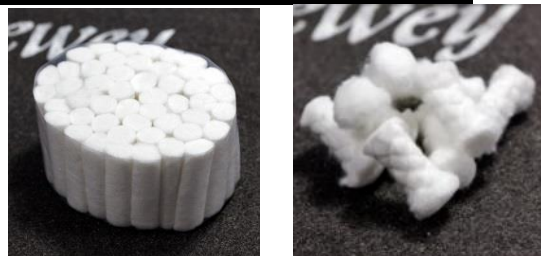

Kit Contains

- Chamber cleaning rod, 8/32 female threaded
- Lug recess cleaning head 8/32 male threaded
- Lug recess cleaning felts, pre-drilled
- 50 pack cotton rolls
- Chamber mop
- Double-ended nylon cleaning brush
- 1/16" hex wrench

On bolt action rifles, the locking lug area tends to collect debris and solvents. This can cause excess wear on locking lugs and potential bolt malfunctions can occur. Our lug recess cleaning tools make quick work of cleaning this often-neglected area. The slotted cleaning head accepts preset screw drilled cleaning felts and cotton rolls. They can be used dry or with solvent. Included is a chamber mop and double-ended nylon cleaning brush for those hard to reach areas of the action and bolt. Complete instructions enclosed with each kit.

Iosso Products

NEW BIO-Based Formula. Highly effective concentrated paste formula that lasts longer and takes less time to clean with than ordinary liquid or aerosol type cleaners. Because it is a paste it cannot spill or run into wood stocks, grips or mechanisms causing chemical damage. Iosso Bore Cleaner removes copper, lead, carbon burn, powder fouling, plastic wad residue, and surface rust. It is non-corrosive, non-flammable and has no offensive odors or mists. This bio-based formula is made from plant extracts. While keeping our environment healthy, it also reduces our dependence on foreign resources. USDA Certified and designated for federal procurement and Fiberglass.

Model	Description	Dealer	List
Iosso Bore Cleaner	Metal Polish (1.5 oz.)		

Case Polish cleans and polishes brass casings to a high luster. It removes powder fouling, residue, oxidation, tarnish, and discoloration. Add Iosso Case Polish to your media before tumbling. It works with the media to reduce tumbling time and gives your brass a like-new finish. Use Iosso Case Polish on soiled casings or on casings that have been pre-cleaned with the Iosso Case Cleaner.

Model	Description	Dealer	List
Iosso Case Polish	Tumbler Media Additive (8.0 oz.)		
Iosso GunBrite	Polish (2.0 oz.)		

GunBrite is safe for use on factory blued, stainless steel, and chrome and nickel guns. It removes powder fouling, surface rust, tarnish and discoloration from the barrel and stubborn black rings from the face of the cylinder. The polish leaves behind a non-oily protective coating that resists fingerprinting and moisture.

Restores brass casings to a bright finish in seconds. This liquid cleaner effectively removes powder fouling residue, oxidation, tarnish, discoloration, dirt, and grime. It cleans the inside of the casings and the primer pocket where tumbling media is not effective. Just immerse the casings in the solution for from 20 seconds up to five minutes, rinse, and dry. The Case Cleaner solution is reusable and economical. A quart of IOSSO case cleaner cleans approximately 1500 casings depending upon the degree of tarnish, residue and size.

The Kit contains a quart of Case Cleaner, a bucket and strainer bag. Environmentally friendly

The solution may be used in an Ultrasonic Cleaner. It is suggested to line the pan with a plastic bag. For added protection against future tarnish, use the IOSSO Case Polish after cleaning. It will leave a high polish in 30 minutes or less.

Model	Description	Dealer	List
Iosso Case Cleaner	Iosso Case Cleaner Kit – Qt. size		

IOSSO QUICKSTRIP is a revolutionary product designed to remove Parkerizing and blueing within minutes without etching. Just immerse parts into Quickstrip solution and let soak for several minutes. Watch closely until completely stripped, then remove, and rinse thoroughly with water. Eliminates the need for bead blasting. Solution is re-useable. Quickstrip does not contain a rust inhibitor. Easy to use – little odor! Environmentally friendly.

Model	Description	Dealer	List
Iosso Quick Strip	Iosso Quick Strip – 1 gallon		

ODOR BUSTER

Odor Buster....has no odor, leaves no odor behind. Odor Buster Neutralizes and eliminates common odor problems. It removes all types of odors permanently without masking or using fragrances to cover it up. Spray directly on fabric, carpeting, clothing, cushions, or just spray into the air. Safe around children and pets. The odor is busted!

Model	Description	Dealer	List

Super Brush – Swab-its

Introducing new Bore-tips™ (Patent Pending) Gun & Bore Cleaning Swabs that offer precision cleaning and a tight bore fit. Reusable Bore-tips™

Using Bore-tips™

Notes: Before using Bore-tips™, be sure that chambers are clear of ammunition, magazines are removed, and the firearm is pointed in a safe direction!

- 1.) Remove appropriate size Bore-tip from runner
- 2.) Screw into a 8-32 cleaning rod
- 3.) Apply chosen solvent/lubricant
- 4.) Use to coat/clean/lubricate

[Learn More](#)

Give your gun firearm the ultimate cleaning that it deserves with Swab-its® new Bore-tips™ and Gun-tips™ foam swabs!

Swab-its® has developed a variety of bore cleaning swabs and firearms swabs that clean all of your guns and accessories. Our foam swabs feature nonabrasive foam mitts.

Reusable Foam Tips - Can Be Cleaned with Soap and Water

Use with a 8-32 Cleaning Rod

TM-2	Steel Target Stand – Wyatt Earp		

Possum Hollow Bore Guides

Our *BORE GUIDES* are machined from a solid piece of Delrin®. This material is 100% solvent resistant. Bore Guides are designed to align the cleaning rod with the center of the rifles bore. This insures that no damage can be done to your rifle barrel, cleaning rod, or bolt face by a jag or brush.

Almost all *Bore Guides*, with the exception of *Rimfire Bore Guides* are designed with a snout that extends into the chamber. This snout has a silicone “O” ring that seals off the chamber. This insures that no solvent can run back into the action or trigger. For optimum performance add an optional integrated or separate *Solvent Port*.

Remington Replacement Assemblies

Wyatt's Outdoor makes detachable magazines and bottom metal for Remington and Howa actions. They also have the extended length internal box assemblies in single feed or staggered feed, which allow up to .110" increase in OAL (overall length) of a cartridge. This does require a modification to the action and bolt stop assembly.

Micro-Fiber Technology.

The **Soft-Tek** Cleaning Cloth is the result of advanced micro-fiber technology. Non-woven fibers together with extra thickness allow the **Soft-Tek** Cleaning Cloth to lift away grease and dirt from lens surfaces safely and quickly.

The **Soft-Tek** Cleaning Cloth is chemical free. **Soft-Tek** can be washed repeatedly and will remain soft.

Compare for yourself.

Clean a pair of eyeglasses or sunglasses with a standard cloth such as a handkerchief. Now clean them with the **Soft-Tek** Cleaning Cloth. You will immediately notice the difference. The **Soft-Tek** Cleaning Cloth has a "gripping" feel to it as it removes the dirt.

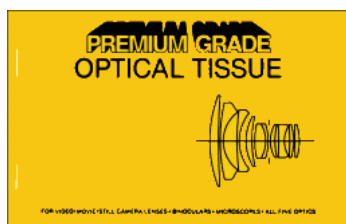

The **Soft-Tek** Cleaning Cloth is safe for all glass and plastic lenses. In addition, it will clean most high gloss surfaces.

LENSPEN MiniPro's chamois tip is impregnated with a revolutionary non-liquid cleaning compound that absorbs oily residues and contaminants safer, easier and more effectively than any other method.

MLP-1	10.95	

Model	Description	Dealer	List
LCT-PG	Yellow paper – 25 pcs		

Type 1, Class 1 Lens Cleaning Tissue Paper has been the camera & optical industry standard for many years. It is specified as a **"dry use"** tissue. There has always been a concern in the camera and optical industry that putting excessive liquid lens cleaning fluids directly on the lens surface may allow fluid to enter between lens elements. The recommended procedure for using Type 1, Class 1 tissue is to put a few drops of fluid on a wad of tissue and proceed to clean the lens or optical surface. Meets government specification #A-A-50177B for Type 1 Class 1

Formula MC Lens Cleaner

Model	Description	Dealer	List
MC-303	Lens Cleaner – 1 oz. dropper		

No Smear - No Residue

Formula MC will clean multi-coated filters and optics without leaving behind residue.

Miles Gilbert – Stock Refinishing Kit

Model	Description	Dealer	List
BTI-190274	Miles Gilbert – Glass Bedding Kit – complete kit		
BTI-139021	Miles Gilbert – Stock Refinishing Kit		

The Miles Gilbert Gunstock Re-Finish Kit matches the very finest finishing materials and supplies with an easy to follow, professionally produced instructional DVD to allow even the first-time user the opportunity to produce a masterpiece. Formula #5 Classic American Oil Finish is the absolute top of the line hand-applied oil finish for walnut gunstocks. It creates a tough, protective, yet attractive appearance that includes options for low, medium or high gloss. We recommend this kit for all hunting and target guns.

Kit includes:

Model	Description	Dealer	List
BTI-468993	Wheeler Cerama-Coat - Black		

This one-can solution is the toughest metal finish available. This is an ultra-modern formula that contains a ceramic matrix, giving the finish ultimate durability, wear-resistance, and protection against rust and solvents. The matte black color won't spook game and looks great on any gun.

AR-15 Maintenance Mat

The Mat is made of a dark gray no-mar, padded neoprene surface with a durable non-skid rubber backing to protect firearm finishes while helping to keep track of small parts. Excess oils and solvents are absorbed into the mat, keeping the surface clean and dry.

Model	Description	Dealer	List
BTI-156824	Wheeler AR-15 Maintenance Mat – 20” x 47”		

Combo Rest

“BR Rock”

- Wide and stable footprint dispersed over 8 1/2 lb. rest
- 7/8" diameter steel post provides smooth and quick elevation adjustments up to 8 1/4" height
- Use the 3 leveling feet to level your rest on most any surface
- Forend stop ensures consistent stock placement from shot-to-shot
- Forend cradle is designed to accept all Caldwell Deluxe Universal Front Rest Bags

Model	Description	Dealer	List
BTI-383640	Caldwell Combo Shooting Rest - med ft. bag and rear bag		
BTI-440907	Caldwell “The BR Rock” Front Rest – 13 lbs. windage top		

The Lead Sled

- Up to 95% recoil reduction. Ideal for magnum rifles & slug guns
- New innovative, adjustable weight tray slides to accommodate bar bell weights as well as weight bags. Holds two 25 lb. bar bell weights
- Holds up to 100lbs. of lead shot
- **New improved “no wobble” elevation ram**
- Fingertip elevation adjustment
- Filled front bag included. Padded rear rest
- Non-marring rubber feet. Adjustable height rear foot

Model	Description	Dealer	List
BTI-820300	Caldwell The Lead Sled Plus		

Rock BR Foot Pads

BR Feet are designed to provide a stable, non-marring solution that keeps the spiked metal feet of your front rest from gouging or scratching the tabletop of your shooting bench. BR Feet are rubber coated, metal washers that allow the shooting rest's spiked metal feet to nest in the washer to provide a firm, no-slip footprint while protecting your tabletop.

Model	Description	Dealer	List
BTI-845221	Caldwell BR Front Rest Stabilizers – set of 3		

Front/Rear Rest Bag

Model	Description	Dealer	List
BTI-391981	Caldwell Front Bag Narrow - Sporter		
BTI-800888	Caldwell Med. High Rear Bag – filled		

These innovative, high-quality leather and polyester Front Shooting Bags function with most brands of front rests. The exclusive hook and loop tabs or the Front Rests allow quick installation and removal from the cradle without time-consuming need to lace them on. The leather gives you a secure rest and the polyester, which will not stretch or sag, allows the bag to hold its shape. This combination makes for the best shooting bag on the market.

AR-15 Magazine Charger

Model	Description	Dealer	List
BTI-397488	Caldwell AR15 Magazine Charger		

- Load AR Magazine in just seconds
